

Let's punish the wokophobes!

We are witnessing an increase in inappropriate, scandalous, dishonorable and unethical language...

It is no longer acceptable for individuals to publicly express transphobic, Islamophobic, blasphemous, wokophobic positions...

Convictions for good conduct or fines are clearly insufficient.

To put an end to this reactionary climate, we need to introduce far more severe penal sanctions, such as the rehabilitation of the cangue or the pillory and the public indignity that goes with it.
